708 W Nora
Spokane, WA 99205

20 years ago, Saddleback Church in Southern California launched Celebrate Recovery with 43 people. It was designed as a program to help those struggling with hurts, habits and hang-ups by showing them the loving power of Jesus Christ through a recovery process. The Celebrate Recovery program involves 8 principles from the beatitudes of the New Testament, and 12 biblical steps of recovery.

The various Celebrate Recovery Groups, while adhering to the same principles, have different formats which may include dinner, worship, men only, women only, childcare provided, etc. Some require registration, others do not. Those that serve a meal sometimes charge a fee and others provide the meal free. Find the program that best meets your specific needs.
